

## **PRO800 HI-POWER WIRE AND VALVE LOCATOR**

The Pro800 Cable Locator is a new low cost locator for contractors and maintenance personnel. Incorporating a transmitter and sensitive receiver, the Pro800 tracks many types of cabling including CATV, electrical, telephone and lighting.

The Pro800 transmits an easy to follow beep signal that is tracked by the receiver. Simply connect the transmitter to the ground stake and the wire to be tracked and turn on, following the beeps with the receiver using either the visual meter or external speaker.

Included in the unit is a wireless broadcast mode that means inducing the tracing signal through the ground, allowing the user to trace any conductor in the ground within a 7-9 metre radius.

This unit required 8 x D Cell batteries for the transmitter and 1 x 9V for the receiver (not supplied).

### **FEATURES**

- 20% More Power
- Wireless Broadcast Cable Connection
- Triple AC Buzz/Noise Rejection
- Null or Peak Reception Modes
- 1.2km Range via Direct Connection
- Cable Depth to 2.4 metres

### **SPECIFICATION**

- Power Output Max: 900v p-p
