

PRO700 TechTracker Wire and Valve Locator

Application:

The Pro700 TechTracker adds features not seen on valve locators, including an extra long metal wand for easy tracking, the option of using an external speaker instead of a headset when listening to signal, and D batteries for power. Old antiquated 'PVC pipes and tackle boxes' are no match for the power and sophistication of the Pro700.

Features:

- Receiver has in built speaker or headset connection
- Locates wire path, valves, breaks and large nicks
- Pistol style receiver is extended for ease of locating
- Receiver has increased AC filtration
- Simple power check of transmitter output
- Rugged and compact carrying case
- Extra long metal wand (685mm)
- Custom hard shell case

Specifications:

- Requires 8 x D Cell alkaline battery (transmitter)
- Requires 1 x 9V alkaline battery (receiver)
- Battery life – transmitter / receiver 50 hrs
- Transmitter Frequency – 1748Hz
- Power – 750V p-p, 285V rms
