

HR PRODUCTS SCREEN FILTERS - 40MM & 50MM

Filter suitable for filtration of sand and inorganic particles on drip, micro jets and sprinklers. Incoming dirty water is forced through a directional nozzle plate onto the inside of the stainless steel filter screen. This centrifugal motion and gravity move the debris downward and out the flushing valve. Periodical opening of the flush valve will release the dirt from the debris area. without the need to open the filter for cleaning, thus the filter is kept cleaner for a longer period.

FEATURES

- Complete glass reinforced polypropylene construction makes the filter durable to time, solar radiation and chemicals.
- Can be used as main or secondary filter
- Easy to clean by removing the screen element from the filter housing for rinsing

SPECIFICATIONS

- Screen Surface Area: 40mm - 185cm²
50mm - 274cm²
- Discharge: 40mm - 133lpm
50mm - 266lpm
- Working Pressure: 800kPa
- Body: PPC
- Screen: INOX

MODELS	CODE
40mm x 120 mesh screen plastic body filter	HR3388-40
50mm x 120 mesh screen plastic body filter	HR3388-50
