

SPECIFICATION

Antelco micro irrigation tube punch and tube cutter are ideal for punching holes and cutting low density poly pipe.

APPLICATION

TUBE PUNCH - used for punching holes in low density poly tubes up to an outside diameter of 16mm. Punched hole is suitable for inserting 4mm barbed irrigation emitters and fittings.

TUBE CUTTER - used for cutting low density poly tubes, clear vinyl tubes (CVT) tube up to an outside diameter of 16mm can also be used to cut upto 8mm hydraulic tube

FEATURES

Protection for punch, blade and spring prevents damage when not used
 Punch pierces a clean hole and removes plug leaving tube free of debris
 Square cutting action gives a clean end allowing easy installation of fittings
 Both models barcoded and packaged

SPECIFICATIONS

Body - material ABS
 Spring - spring steel
 Screws - zinc plated steel
 Blade - hardened steel
 Punch - hardened steel
