

HUNTER BLUETOOTH

TAP TIMER - BTT

Keep even the smallest areas adequately watered with BTT, a Bluetooth® enabled, battery operated tap timer controlled via an iOS or Android smartphone. BTT is the perfect durable indoor and outdoor wireless solution for nurturing gardens, greenhouses, terraces, potted plants, flower beds, nurseries and small lawn areas located in spaces without available in-ground irrigation.

Long lasting alkaline batteries are included and the timer installs in seconds to any standard hose threaded tap. Mobile app control removes the task of reaching around shrubs or stepping on delicate plants to access the tap. The easy-to-use, in-app cycling mode provides a variety of uses for specialised applications. Users can also enable manual irrigation with the integrated push button on the timer. BTT makes simple irrigation quick, convenient and affordable.

FEATURES

- Number of zones - 1 or 2
- Bluetooth enabled programming for easy wireless smartphone control
- Manage unlimited number of devices
- Independent timer and cycling modes
- 6 and 24 hour maximum run times
