ORBIT B-HYVE BLUETOOTH HOSE TAP TIMER

The Orbit B-hyve Bluetooth Tap Timer allows the user to water smarter and make watering decisions based on the needs of the home garden. Download the Android or iOS B-hyve App to program your timer. One-touch watering is available on the timer so you can water without using your phone. Add on additional smart valves to create multiple watering zones in your yard, these timers will network together to boost the signal strength without the use of repeaters.

FEATURES

- Use your mobile device's Bluetooth to control and program your B-hyve Tap Timer with a range of up to 45 metres
- Program the timer using the free B-hyve App (Android and iOS)
- Unique Slim-line design
- 3 programs
- 4 start times per program
- 1 - 240 minute run time
- Selective days to water or Odd/Even and interval section up to 32 days
- Seasonal adjustment 10% - 200% per program
- Rain delay 1 - 32 days
- Watering history reports
- Program stored in non-volatile memory and is not lost if timer loses power
- Up to 5 users allowed for remote access - ideal for maintenance and outside programming
- Manual on/off at the tap timer

SMART WATERING CAPABILITIES TO CONSERVE WATER - WIFI HUB

- Tap Timer smart watering setting, acts as a rain delay based on forecast with standard controller station programming
- Smart watering, allows user to set irrigation condition
- Wi-Fi functional Android, iOS mobile platform > no charge
- Must be connected to home network via HUB for smart watering settings
- Programmable from mobile application
- WeatherSense™ technology that provides smart watering based on site conditions such as slope, soil type, sun/shade, historical ET and live weather feeds
- Smart watering restrictions based on odd/even or selective days

How to pair with router
