TOOLS

PRO700

WIRE AND VALVE LOCATOR

The Pro700 Wire and Valve Locator is a fault locator for irrigation contractors and maintenance personnel. Incorporating a powerful transmitter and sensitive receiver, the Pro700 tracks irrigation wires, finds missing valves and detects damage to vulnerable underground cabling and can also track depth to 2.1 metres. The PRO700 transmits an easy to follow beeping signal that is tracked by the extra long receiver. Designed and built for use in commercial and domestic watering systems.

FEATURES

- Headset or external speaker response
- Locates wire path and valves
- Locates breaks and large nicks
- Pistol style receiver with speaker
- Advanced electronic circuitry to minimise 50-60Hz AC noise for a clearer, cleaner sound
- Pistol receiver has 675mm metal wand for easy locating
- Receiver has increased AC filtration
- Loud emitted beeps to assist with cable tracking indication
- Enlarged analog meters for easy viewing of power levels on the transmitter and receiver
- Simple power check of transmitter output
- Supplied in hardshell custom case

SPECIFICATIONS

- Power: Transmitter - 8 D cell Alkaline batteries (not included)
- Power: Receiver - 9V Alkaline battery (not included)
- Battery life: Transmitter - 50 hours
- Battery life: Receiver - 50 hours
- Transmitter frequency: 1748Hz Transmitter
- Power: 750 p-p, 285 rms
