

PORTABLE MIST COOLING KIT

The Portable Mist Cooling Kit provides relief from the heat wherever you need it. To experience the benefit of mist cooling, simply attach the convenient hanging snap clips to an umbrella, awning, fence or other structure after connecting to a standard garden hose.

FEATURES

- When connected, the preassembled flexible tubing creates 3.7m of linear mist cooling = 7.3m² of mist area
- The Portable Mist Cooling Kit can install wherever needed
- This water efficient system requires minimal water use of 1.8 litres of water per hour per nozzle
- Connects to a standard outdoor tap
- For cold water outdoor irrigation use only

SPECIFICATIONS

- Total Length: 6m
- Tube Diameter: 6mm (3/8 in)
- Outlet Thread: NHT

Includes:
 Preassembled 6mm (3/8in) Flexible Tubing: 2.4m of feed line connected to 3.7m of mist line = 6m total
