

### VOYAGER GEAR DRIVE SPRINKLER

The Voyager II is the time-tested and proven standard gear driven pop-up sprinkler head for medium to large watering areas. Provides coverage from a 7-15 metre radius in a part to full circle spray pattern. This supremely reliable gear driven rotor ensures even water coverage as well as whisper quiet spray. An adjustment key is included for easy 25 - 360 degree setup.

#### FEATURES

- **Spray Distance** - Sprays adjust from a 7.6m to 15.8m radius
- **Compatible Design**- Perfect replacement for old, failing or inefficient sprinkler systems and is compatible with all major brands
- **Area Coverage** - Ideal for medium to large lawns
- **Bonus Nozzles Included** - Customise each sprinkler for equal yard saturation. Pre-installed with an 11lpm nozzle, which can be switched as needed
- **Adjustable Coverage** - Comes with a key to easily adjust spray coverage from a partial section to full 360° watering
- **Quiet Operation** - Gear-drive rotor sprinkler offers a quiet and smooth rotating spray
- **Low Profile** - 100mm pop up height
- **Standard Connection** - 3/4" female threaded connection
- **Removable Filter** - Easy to remove filter reduces clogging from dirty non-potable water debris
