

# RURAL HINGED SADDLES

The Rural tapping band is designed to be fitted onto rural size poly pipe. The 4N Rural Saddle has two halves hinged together on one side with a single bolt clamping on the other side. Made from engineering grade Acetal designed for long term performance. The resilient seat sealing "O" ring is made from Nitrile rubber. Available in Zinc plated or Stainless Steel nut and bolt.

## FEATURES

- Cuts installation time in half
- Easy to clamp
- Single bolt system for easy installation
- Pressure rated to 600kpa at 20°C
